

**TONY HORSEMAN . . .**  
who has scored 53 goals  
this season.

# Wycombe note to selectors: *'WATCH OUR TONY HORSEMAN'*

**PETER BLACKMAN**

**W**ycombe Wanderers have written to England's amateur soccer selectors stating they should consider inside-forward Tony Horseman for future internationals.

The Isthmian League club have made every effort to ensure that the request remains just a friendly nudge, but they seriously believe their information can help England's search for a goal-scoring forward.

Horseman, 23-year-old furniture factory worker, has scored an incredible 53 goals in all competitions this season — easily breaking Wycombe's individual scoring record.

Obviously there is a case for the England selectors to watch Horseman in club matches. Wycombe do not hedge in their estimation of Horseman and

bluntly state that he is the best scoring forward in amateur soccer.

One Wycombe official added: "Horseman is closely marked in every game. He appreciates this and has altered his tactics slightly — but he continues to score regularly."
